Summary

Full-stack software engineer and agentic AI developer with production experience building React/Next.js web applications and deploying AI voice agent systems using Retell AI and Twilio SIP trunking. Delivered MERN-stack client projects end-to-end, integrated LLM-powered agents with real business workflows, and automated pipelines with Make.com. Comfortable across front-end UI, back-end services, and AI integration layers.

Technical Skills

Languages	JavaScript (ES2023), TypeScript, Python, HTML5, CSS3
Frameworks	React.js, Next.js 14, Node.js, Express.js, FastAPI, Tailwind CSS, shadcn/ui
AI / Agents	Retell AI, Twilio (SIP trunking, Programmable Voice), OpenAI API, ElevenLabs TTS, Deepgram STT, Make.com
Databases	MongoDB, Sanity CMS
Tools	Git, GitHub, Vercel, Firebase, REST APIs, Agile/Scrum

Experience

AI & Web Developer | Freelance (Upwork + Direct Clients) Jan 2024 – Present

Karachi, Pakistan — Remote

- Deployed AI voice agents with Retell AI + Twilio SIP trunking for business call automation; handled provisioning, SIP configuration, and live call testing end-to-end.
- Built and shipped MERN-stack web applications for international clients; managed full cycle from requirements to production deployment on Vercel.
- Developed automated Make.com pipelines to log AI call transcripts and outcomes in real time for client reporting and CRM integration.
- Generated international leads (Canada/US) via demo-first pitch strategy; built bespoke demo sites and closed pipeline through Instagram DM outreach.

Email Administrator | LikeSolution Dec 2021 – Dec 2022

Karachi, Pakistan

- Managed high-volume digital communications and automated repetitive email workflows, reducing manual processing time across departments.

Projects

Furniro E-Commerce Platform | Next.js 14, TypeScript, Sanity CMS, Tailwind CSS, shadcn/ui [GitHub](#) · [Live](#)

- Built a full-featured furniture e-commerce app with SSR, dynamic product listings, cart management, and responsive UI using Next.js App Router for performance.
- Integrated Sanity headless CMS and authored a custom `importData.mjs` script to programmatically seed structured product catalogue data.
- Deployed on Vercel with optimised image loading; project forked and starred by the community.

AI Voice Agent System | Retell AI, Twilio SIP, Make.com, ElevenLabs, Deepgram [GitHub](#)

- Configured production voice agent for inbound call handling, resolving Twilio identity-verification barriers via SIP trunking as an alternative provisioning path.
- Benchmarked STT/TTS providers (ElevenLabs, Deepgram, Whisper) for Urdu-language accuracy and latency; built Make.com logging layer for real-time call analytics.

Developer Portfolio | React.js, Firebase, JavaScript [GitHub](#) · [Live](#)

- Designed and deployed personal portfolio with Firebase backend for contact handling; serves as live demo asset for client acquisition.

Education & Certifications

B.S. Computer Science | ILMA University, Karachi Aug 2023 – Present

Certified Cloud Applied GenAI Engineer | Governor Sindh Initiative (GenAI, Web3 & Metaverse) Feb 2024 – Present

MERN Stack Certificate | Jawan Pakistan Jun 2022 – Jun 2023

Web & Mobile App Development | Saylani Mass IT Training (SMIT) Aug 2024 – Feb 2025
